Powerfield comprise of three highly individual performers and stalwarts of the electro-acoustic scene. Gary Smith has, over the last few years, led his own field of stereo processed guitar techniques, demonstrated on his previous FMR release 'Forgotten Room with Chairs' (FMRC52-V0798). Pat Thomas has supplied his breathtaking electronics to much of the best electro-acoustic & improv releases over the course of his career. Along with the highly reputed talents of Joe Gallivan, here with his electronic percussion and moog, this is sterling stuff for all fans of the genre.
