Paul Rogers (bass)

Bells and shakers on track 2 played by  
France Brodeur, Miles Larmour  
Colin Hitchmough, Terry Thorpe  
Bruce Coates, Chris Trent,  
Andy Isham

A brand new recording by the dynamic duo of virtuoso Paul Dunmall and Paul Rogers following their highly acclaimed release 'Regeneration'

The title 'Repercussions' gives a clue as the duo are aided and abetted on the title track by some percussion as well

Recorded at the Unitarian Chapel in Warwick in Feb of this year it features Paul Dunmall playing soprano and as well as clarinet and his famous bagpipes and Paul Rogers wonderful 7 string custom bass. As always the music is fast moving and constantly inventive! ...unsurprising considering these two virtuosos pedigree!

Fabulous music
