

THE SHAPE FINDS ITS OWN SPACE

This trio happened at the **No Idea** festival in Austin, Texas, February 2016, as an ad hoc combination. I came to Austin with a flu, and felt while playing I was unable to get any decent sound out of my horn. I was really struggling! I was quite surprised when I heard the recording.

Which to me sounds good!

Damon and Alvin have played together for some time. I knew Damon a little bit, but I never even met Alvin before. I knew he was a very early member of the AACM in Chicago when they first started and he played with the people that we all know about. He is a "historic" person. Damon is a bassplayer who has worked with a lot of important European and US improvisers and so have I. FG 2016
